Although Delta Lambda Phi is an openly gay fraternity, some of our members do not feel comfortable being “outed” in public. We try our best to protect our members from the public and be discrete about anything we do on your behalf, we hope you do the same to others.

Also be aware that Delta Lambda Phi is a social fraternity, not a sex club; in regards to this issue, we adopted national a code of conduct, namely the “hands off policy”, in which brothers and pledges are prohibited to date each other, request, or attempt any sexual behavior upon another brother or pledge.

By signing this, I certify that all information provided above are accurate, and that I will strictly follow the hands off policy, and I promise not to make any brothers/pledges/rushees uncomfortable by outing them in public.
